MRTA8 + Fork Lift Adaptor [635kg]

Specially designed for use with the MRTA8 glass vacuum lifter, this fork lift adaptor allows glass to be installed around soffits and overhangs.

Using this adaptor, the MRTA8 lifter can be changed from a below-the-hook device to a machine that is compatible with a telehandler or forklift with forks up to 57mm thick and 152mm wide.

A specialist attachment for our MRT4 lifter, the MRT4 Fork Lift Adaptor is also available to hire or buy.

Key Features

- Capacity: 635kg
- Accepts forks 38-57mm thick and 102-152mm wide
- 1270mm reach from fork stops to pad face
- For added safety, chains are recommended to secure the attachment back to the forklift mast
- Weight: 132kg (with lifter and extension arms)
- Vacuum lifter sold/hired separately
