

Technical Specification Sheet

Edging Stone Grab (MSL21)

[60 or 120mm, 80kg]

A handy manual clamp for the easy lifting of border, edging and kerb stones up to 120mm thick.

A great aid to avoid trapped fingers and strained wrists, this Border & Edging clamp has 80kg of lifting power and is suitable for different finishes of edging stone including flat top, round top and bull nosed profiles.

A twist mechanism allows easy clamp and release of the load.
